

Your warehouse and distribution partner for a supply chain advantage.

A warehousing provider you can count on.

Supply chains need to be more agile and responsive than ever before. Accurate, efficient order fulfillment and economical solutions are at the top of your list when outsourcing warehousing and distribution. Look no further than Dedicated Logistics Warehousing (DLW).

We assist manufacturers, distributors and service organizations to streamline their operations with smart, scalable warehouse solutions. No matter if your business is seasonal, specialized or requires complex local and national transportation, DLW provides the highest level of distribution service to your customers—without sacrificing the bottom line. ▲

The Dedicated Logistics Warehousing advantage.

Inability to see into your inventory and lack of flexibility to grow with your operations are limitations of warehouse providers that don't offer integrated solutions. Our public warehouse solutions bring you the flexibility to adjust your space, equipment and staffing. This means warehousing solutions where and when you need them with complete control of your inventory.

Inventory control and visibility

Maintain control of your stock with our innovative technology that gives you visibility into your inventory for making strategic decisions that support your product and inventory management requirements. Your supply chain benefits by our state-of-the-art warehouse management system:

- Real-time, online inventory tracking, including serial number and lot control
- Online order placement
- EDI compatible
- Inbound and outbound shipment tracking and reporting, including customized reporting
- FIFO/LIFO inventory management systems

Value-added warehousing services

With fast onboarding and a range of value-added warehousing services, allow us to become an extension of your operation. Backed by a centralized customer service call center, our services include:

- Contract warehousing for dedicated distribution centers
- Contract labor leasing
- Rental trailers

Additional warehouse features

- Food grade storage: AIB operating standards for cleaning, monitoring, inspections and reporting
- FDA certified
- 24/7 electronic and video monitoring

Logistics services beyond the warehouse

Our full complement of distribution services includes local and national transportation to meet your changing business needs and customer requirements:

- Third-party logistics (3PLs) services, including pool distribution
- Dedicated fleets, LTL, dry van and more
- Import container processing
- Reverse logistics

Dedicated Logistics Warehousing

Dedicated Logistics Warehousing, LLC (DLW) offers public and contract warehousing, material handling and distribution services—all with online inventory control and safe handling. With multiple locations to serve customers in the Midwest and contract warehousing capabilities across the United States, DLW enables companies to grow while easily handling fluctuations in inventory assets, seasonal fluctuations and other variables without making large capital expenditures in space, technology, staff, training or operations. DLW is an affiliate company of Total Logistics, Inc. which brings customers comprehensive, end-to-end transportation and logistics management services.
